September 7, 2017

Franklin Falls / Pemigewasset River Abutter,

SOLitude Lake Management, 590 Lake Street, Shrewsbury, MA 01545, Telephone 508-865-1000, has been contracted by the U.S. Army Engineering District, New England to chemically treat portions of Franklin Falls ACOE Area (Pemigewasset River) in Franklin for control of non-native milfoil. Portions will be treated with the USEPA/State registered herbicide Navigate (2,4-D BEE) EPA Registration Number 228-378-89590 on or about Friday, September 22, 2017, in accordance with Special Permit SP-234 issued by the NH Division of Pesticide Control.

The following temporary water use restrictions will be imposed on the day of treatment:

- No swimming for 24 hours following treatment, within 200 feet of treated areas.
- Do not use this water for drinking, irrigation or for mixing sprays for agricultural or ornamental plants until further notice. Some irrigation restrictions may be relaxed, as per the pesticide label, at the discretion of the applicator. These restrictions apply to all intakes within 1,200 feet of the treatment area, and to all wells within 50 feet of shoreline that itself is within 1,200 feet of a treatment area. Contact Ann Meringolo at SOLitude Lake Management, 590 Lake Street, Shrewsbury, MA 01545, Telephone 508-865-1000, email NHLakes@SolitudeLake.com or go to <http://www.solitudelakemanagement.com/nhlakes> for information on the release dates of these restrictions or for additional information on the irrigation restrictions.

The shoreline will be posted with signs warning of the temporary water use restrictions that will be imposed, immediately prior to treatment. If you have any questions concerning this treatment, contact SOLitude Lake Management using the information above.
