

Request for Design/Build Proposals

The Town of Sanbornton is accepting design/build bids for replacement of Tilton Bridge Rd. bridge deck (DOT Bridge #131/098), existing abutments to be reused. Scope of work to include removal and disposal of old deck, installation of a precast concrete one lane bridge deck (Load Resistance Factor design Code HL-93), gravel wearing surface, guard rails, as well as align and match roadway approaches. Footers are scoured and will need to be addressed by an approved method of repair. Drawings with a P.E. stamp will be required detailing superstructure and attachment to existing abutments. A review by NHDOT will be conducted for comment and to ensure compliance. Contractors must be state approved, provide proof of insurance and provide surety bond. Bids must be received at the Sanbornton Town Office by noon, Wednesday February 2, 2012. Proposals should be clearly marked "Tilton Bridge Proposal". Please contact Bob Veloski at 603-286-8303 with any questions or to schedule a site visit. The Town of Sanbornton reserves the right to accept or reject any and all bids.
