| \$10,000 Property Damage Estimate |
| |

Heavy rain (2 to 5 inches in a 10-hour period) was reported statewide and wind speeds statewide were reported as 50 mph to 60 mph in southern and central regions. Presidential Major Disaster Declared for this event (DR-4335).

30 people were injured by lightning at a Boy Scout camp in Gilmanton. Large hail and wet microbursts were main concerns.

Lightning struck two sailboats causing them to catch fire and sink in Lake Winnipesaukee. Wind damage and heavy rain were the main concerns as the storm moved through the region.

Record temps were set on five consecutive days in Concord (Max: 84°F)

Locations around the state including Mount Washington set record high temps on four consecutive days

Many locations saw record lows (Portsmouth -1°F and Mount Washington -33°F) Wind chill warnings and advisories were posted through the state

Exceptionally strong high-pressure ridge in place across the region setting temp records

Enterovirus D-68: A rare strain of enterovirus resulting in infections in children nationwide.

250% higher than previous years

A particularly damaging flu season impacted the region, it was reported that the overall effectiveness of the flu vaccine at this time was 36%

Foodborne outbreaks

Influenza and other raspatory virus outbreaks

Norovirus and other gastrointestinal virus outbreaks

The Fred Fuller oil company was unable to make deliveries to numerous customers

Low pressure system merged with Tropical Storm Phillippe. Uprooted trees and heavy rains downed power lines

Firefighters from the surrounding area responded to a industrial explosion

Numerous staff members reported feeling dizzy and nauseous.
Causing surrounding towns to get involved and closing parts of the hospital for decontamination
